#### Louisville MSA

- Louisville Metropolitan
   Statistical Area (MSA)
- Defined by Federal Office of Management and Budget
- Based on population living in an urban area and commuting patterns

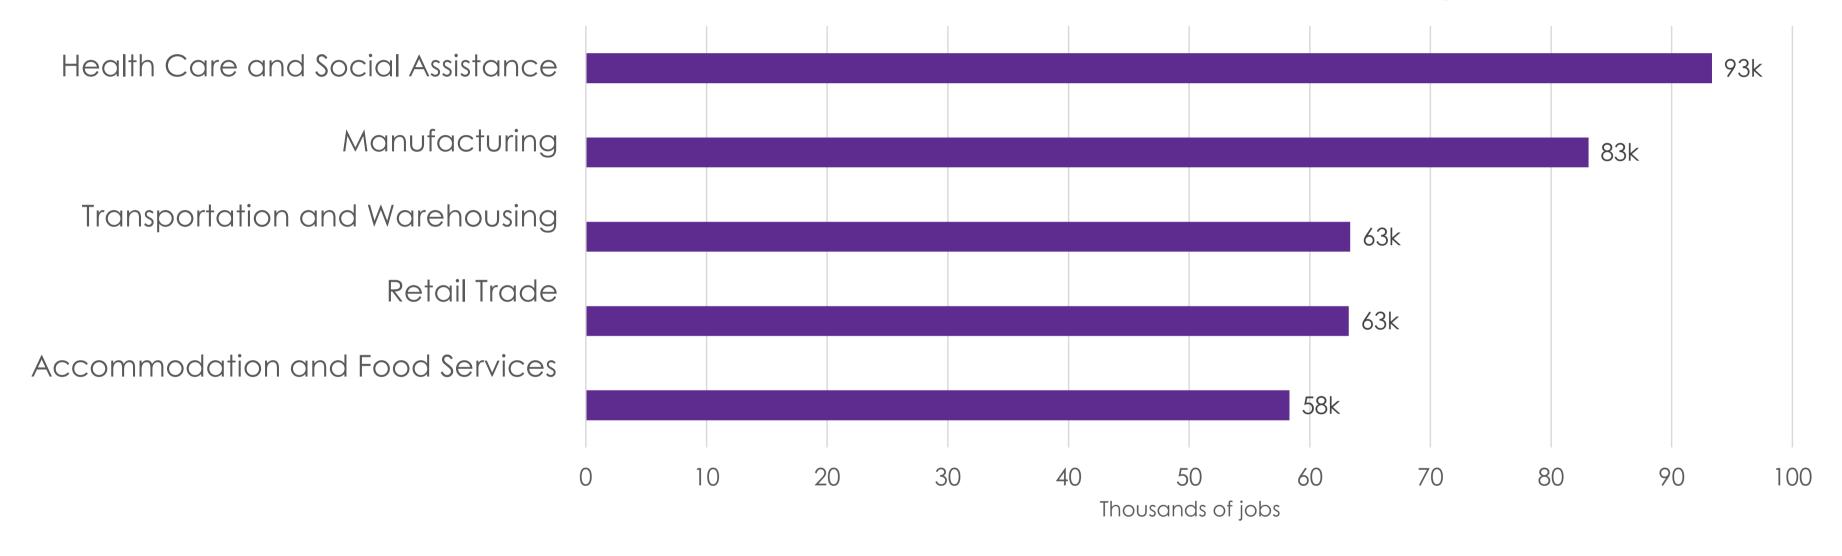

#### Economic Overview

## Five industries account for over half of local private sector jobs.

2023 Private Sector Employment by Industry –Kentuckiana Region

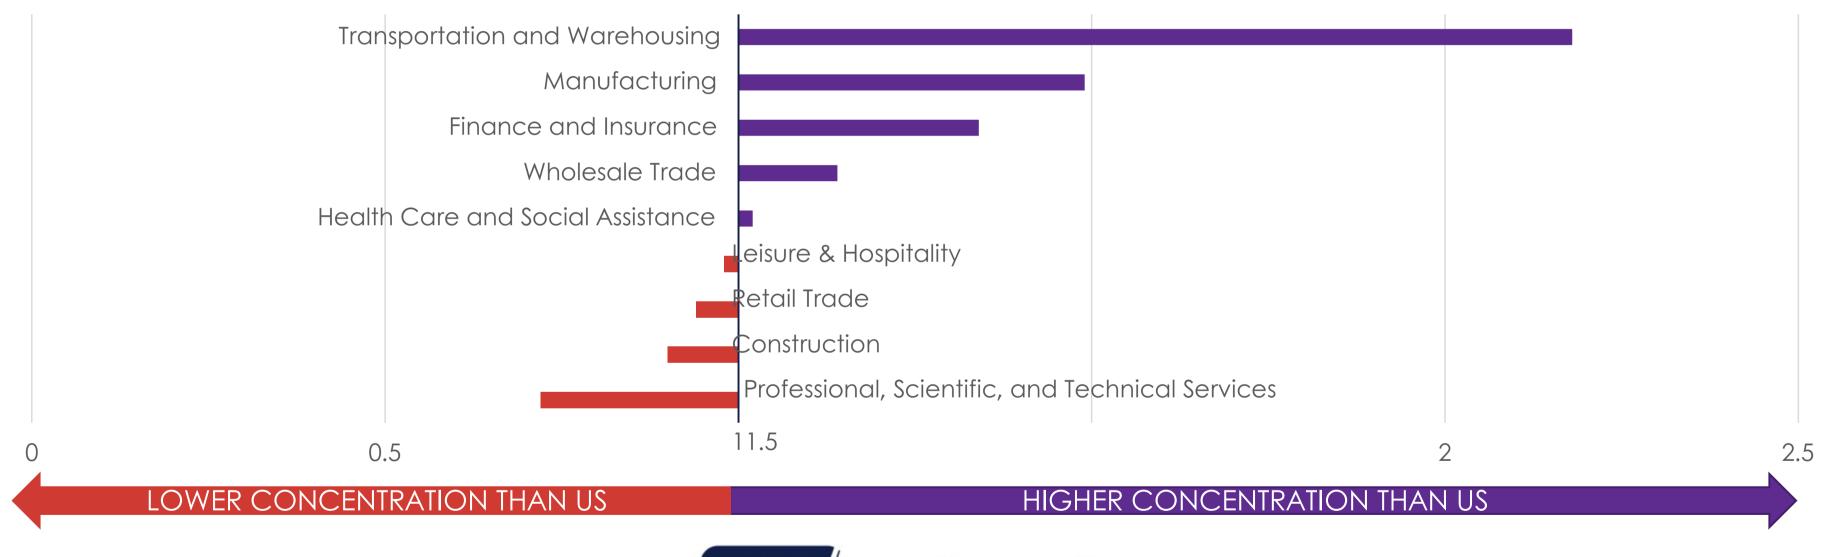

Source: Lightcast2024.1

## Relative to the US economy, the region has the most concentrated employment in logistics, manufacturing, and insurance.

2023 Location Quotient, Select Industries, Kentuckiana Region

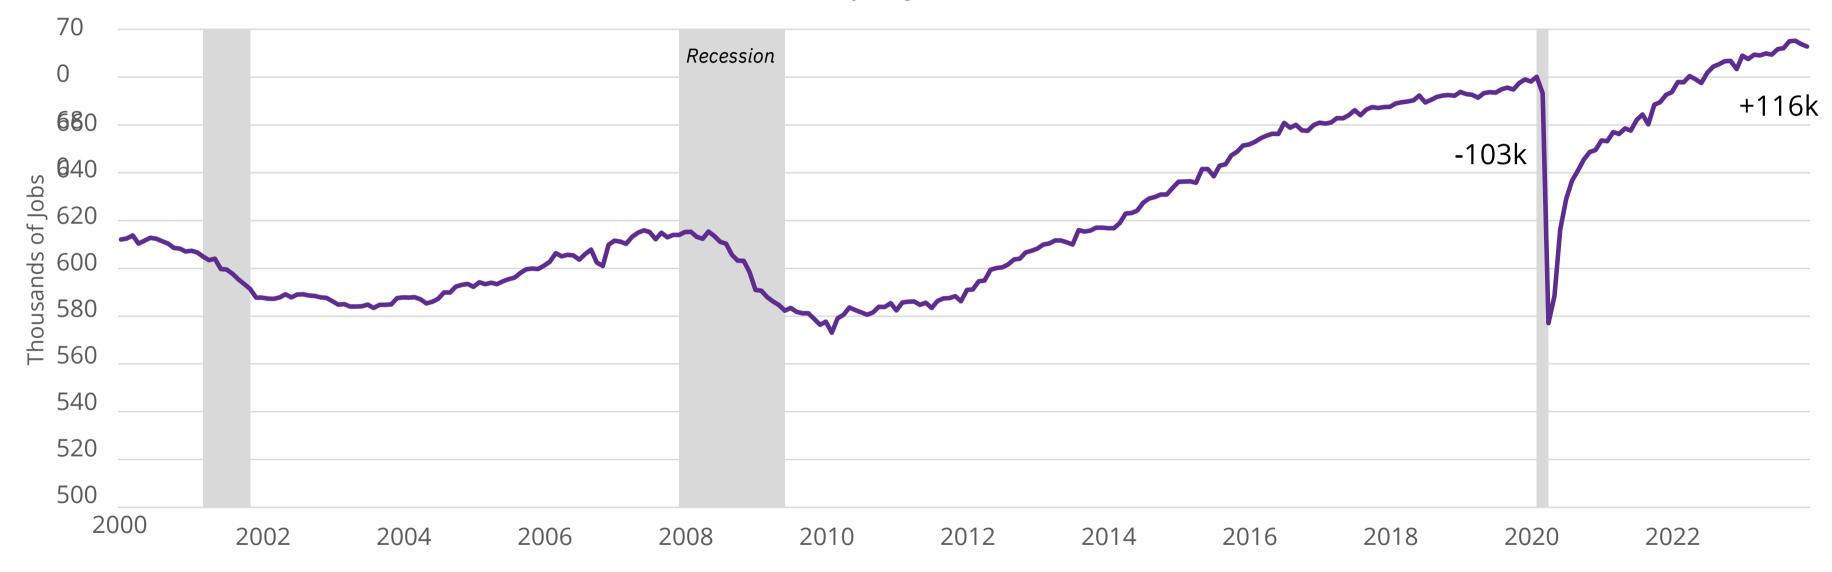

Source: Lightcast2024.1

## The region has recovered all of the jobs lost during the COVID-19 recession.

Total Nonfarm Employment -Louisville MSA

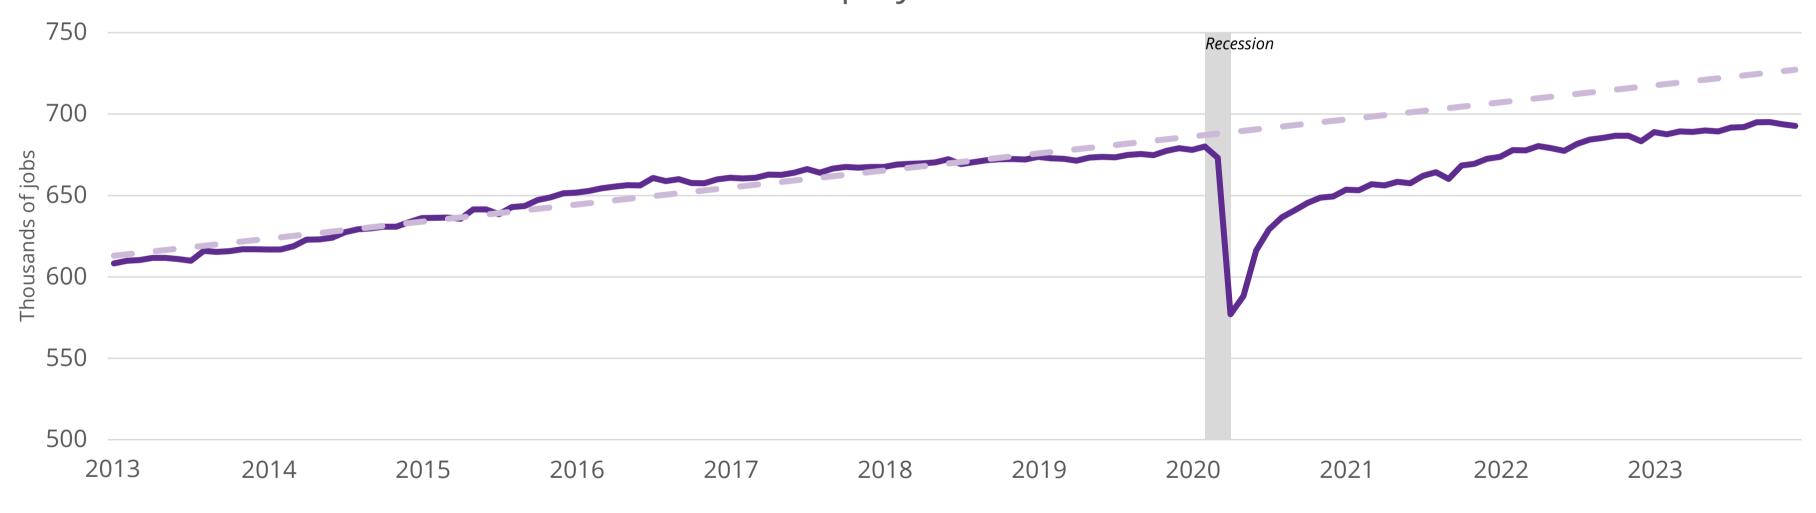

Source: Bureau of Labor Statistics Note: Seasonally Adjusted data, Dec. 2023 is preliminary.

## The number of jobs on payrolls increased in 2023, but is still below pre-COVID trend.

Total Nonfarm Employment -Louisville MSA

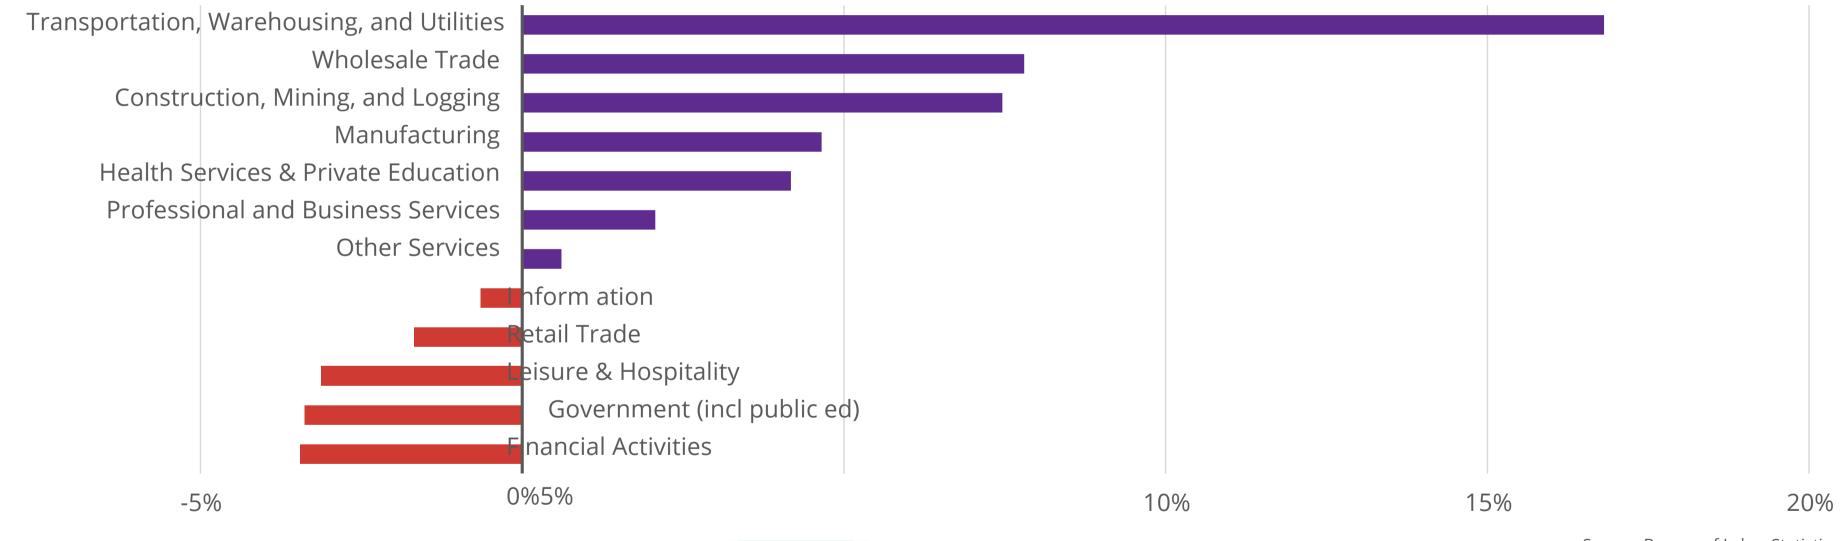

Source: Bureau of Labor Statistics Note: Seasonally Adjusted data, Dec. 2023 is preliminary.

## Even though the region recovered the total number of jobs, they are not the same jobs.

PayrolledEmployment Change, Louisville MSA, 2019-2023

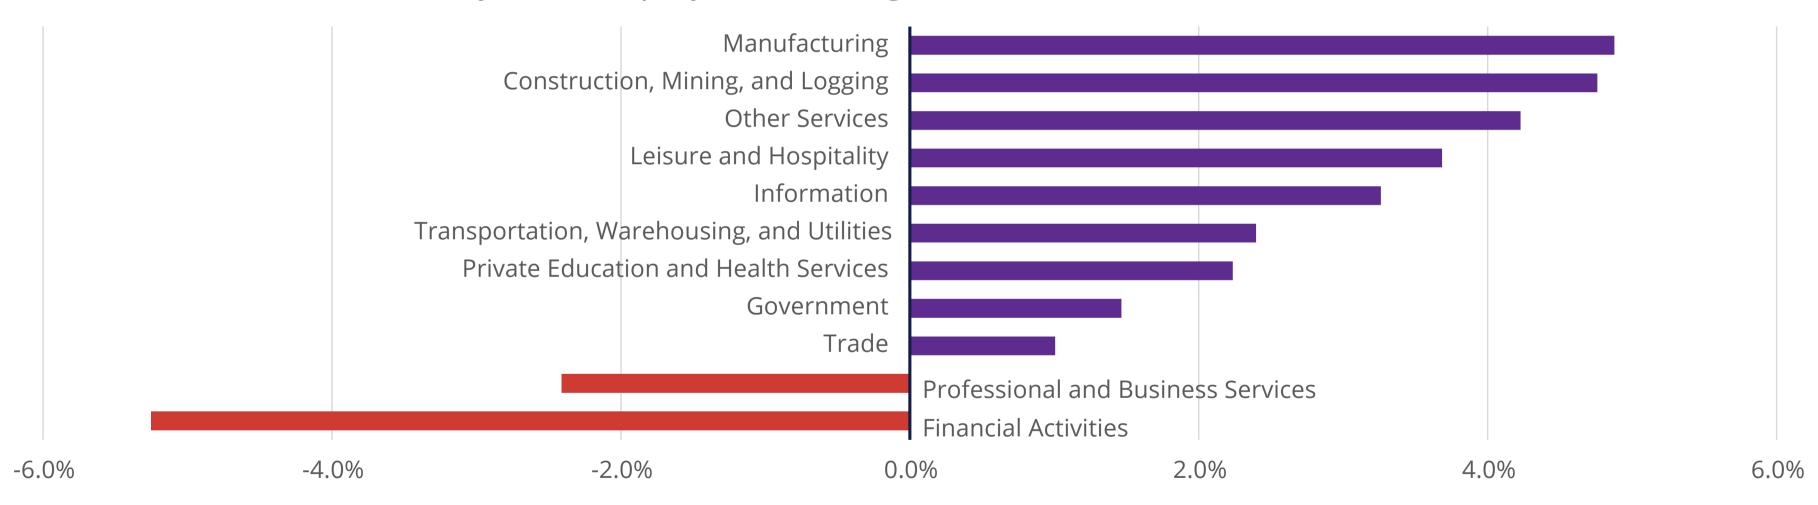

Source: Bureau of Labor Statistics Note: Non-Seasonally Adjusted data, Dec. 2023 is preliminary.

## Manufacturing and Construction realized the fastest job growth between 2022 and 2023.

PayrolledEmployment Change, Louisville MSA, 2022-2023

Source: Bureau of Labor Statistics Note: Non-Seasonally Adjusted data, Dec. 2023 is preliminary.

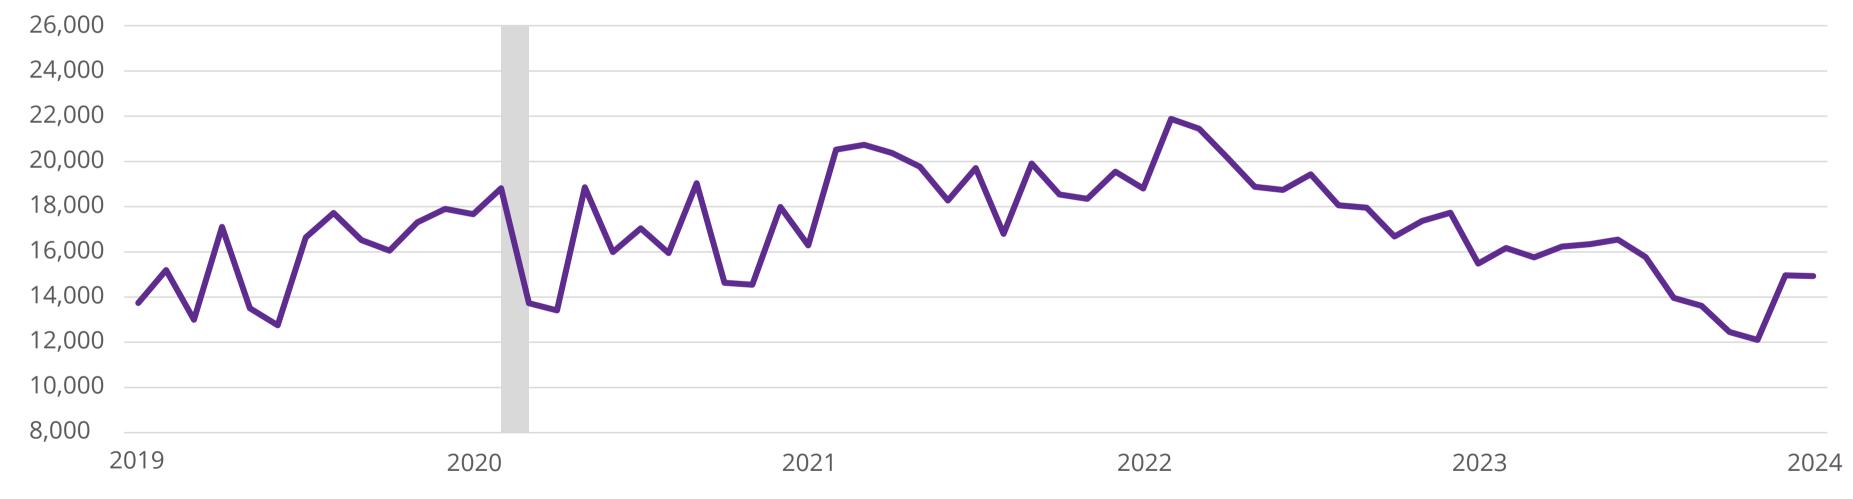

### The average size of the labor force was about 1.5% smaller in 2023 than it was before the pandemic.

#### The number of local online job postings reached record highs last year, but demand is starting to slow.

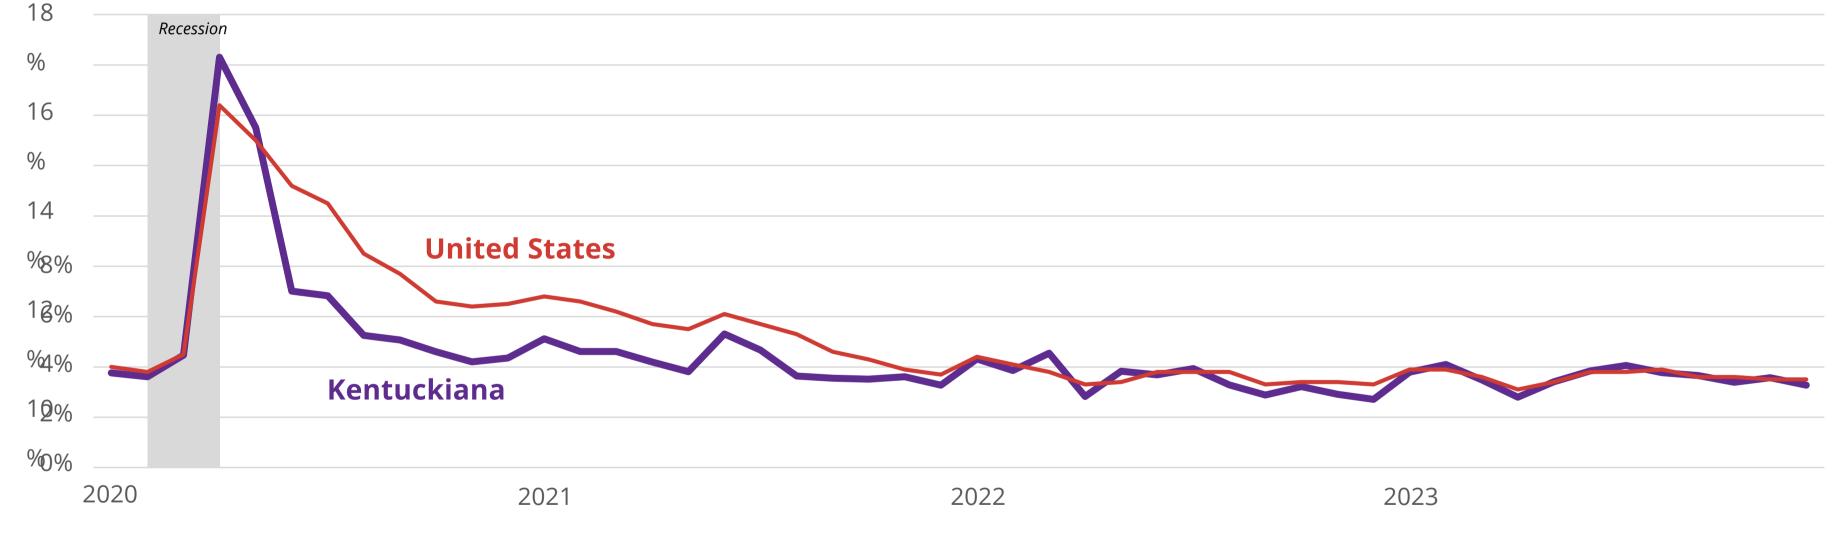

Source: Lightcast

# The unemployment rate remained low throughout 2023, even though it was slightly higher than the rates experienced in 2022.

Source: Bureau of Labor Statistics Note: Non-Seasonally Adjusted data, Dec. 2023 is preliminary.

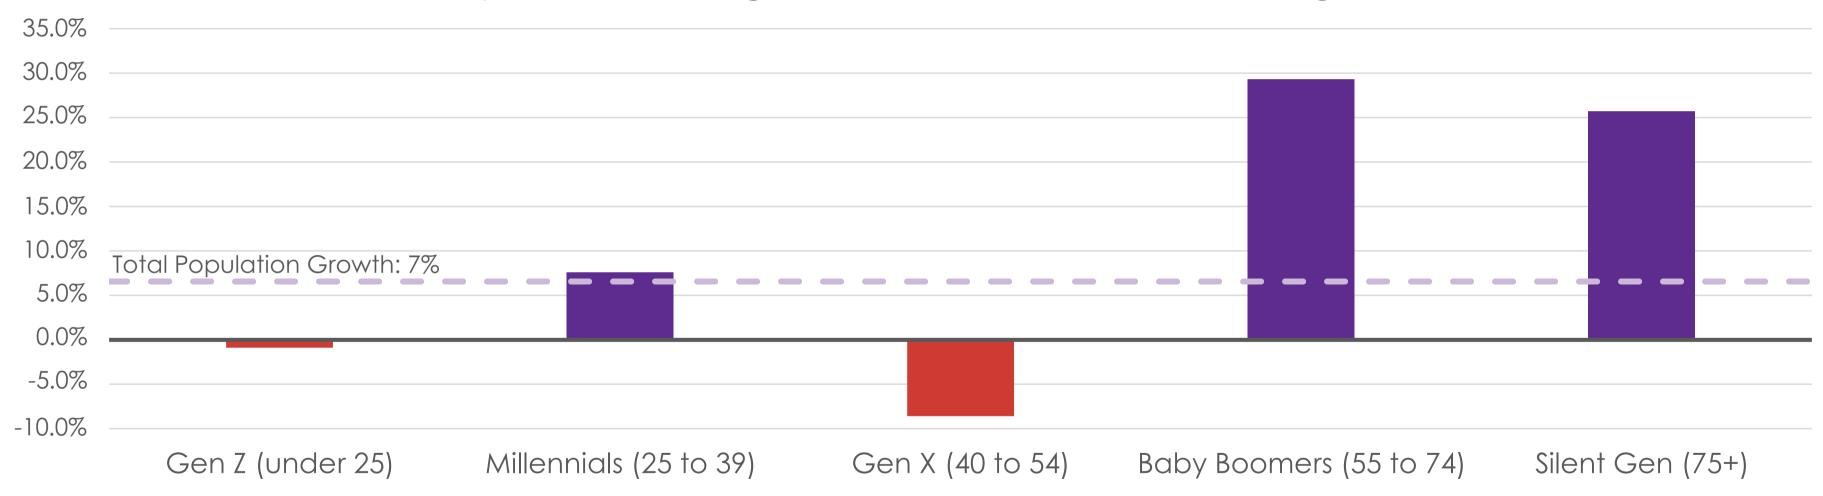

# The Population is Aging

# The biggest contributor to the region's population growth arepeopleage55+

Population Change, 2010 –2022, Kentuckiana Region

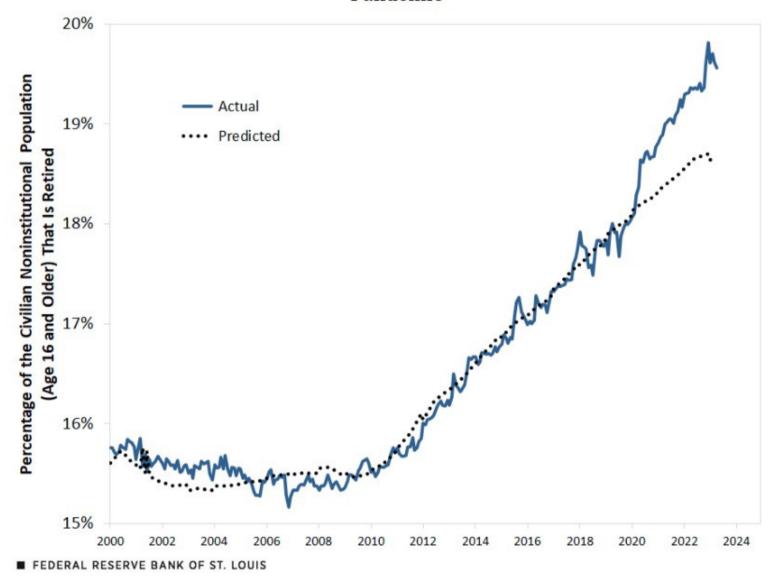

Source: US Census Bureau, 2010 Census, 2022 Population Estimates

# Lots of older workers retire

Research from the St. Louis Fed estimates that were 2.4 million "excess retirements" overthe retirementtrendseenbefore the pandemic.

#### Actual Retirements Began to Greatly Surpass the Predicted Trend during the Pandemic

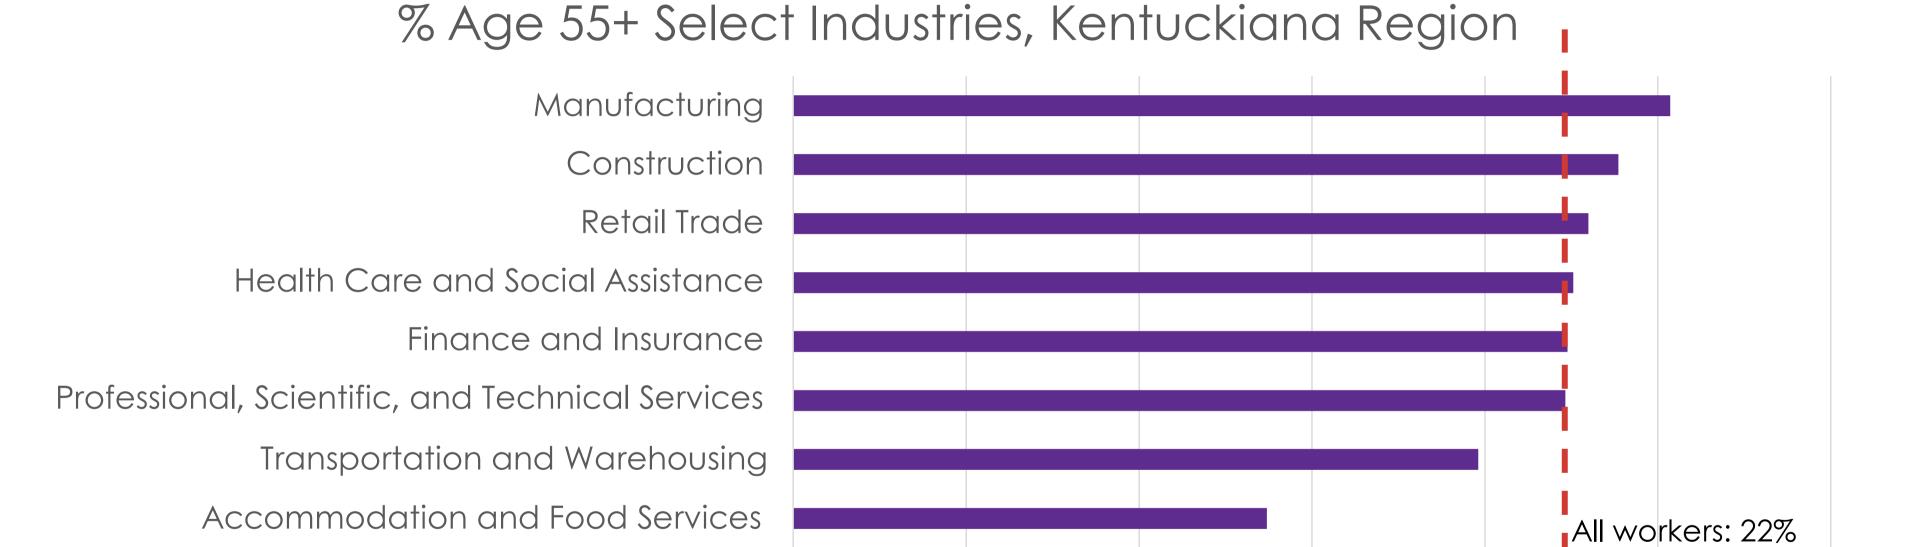

NOTES: The retirement shares are computed using Current Population Survey microdata with weights adjusted for changes in population controls as a result of the 2020 census. The model predicting the retirement share follows Montes, Smith and Dajon, 2022. Data are seasonally adjusted using the X13-ARIMA-SEATS procedure from the Census Bureau.

# Next Generation Talent

# Workforce pipeline impacted by youth disconnection

- •Across the metro area, **1-in-8** young people ages 16 to 24 were not working or enrolled in school in 2022 –more than 17,500 young adults!
- •The region's youth disconnection rate is higher than other nearby metros, including Indianapolis and Cincinnati
- Adverse outcomes from the pandemic may increase disconnection rate
- Chronic absenteeism, lower college enrollment, poor mental health

Source: ACS PUMS 2022

# The economic costs of youth disconnection

### <u>INDIVIDUAL</u>

- Lost income
- Poorer health outcomes
- More involvement with the criminal justice system

### TAXPAYER

- Lower tax revenue
- Higher government expenditures
  - Police, corrections
  - Public assistance programs

### <u>NATION</u>

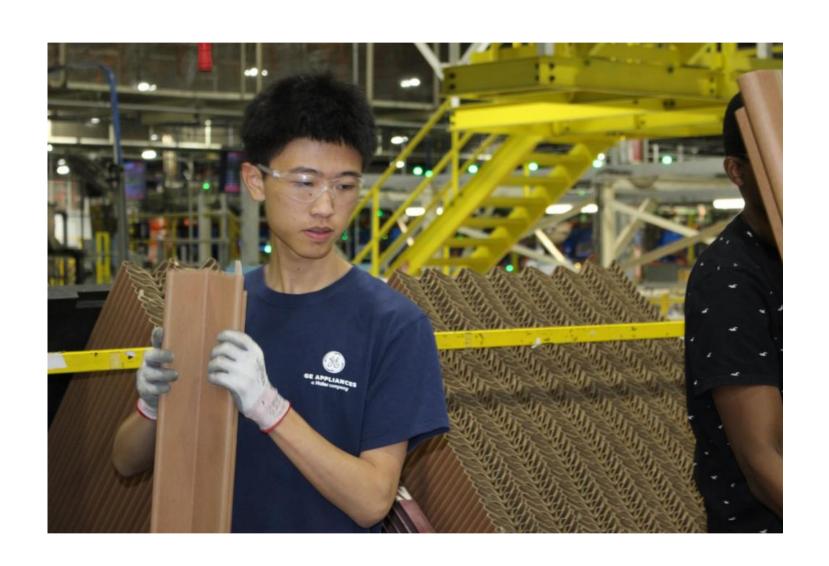

- Lower economic output
- Higher poverty
- Higher crime

Source: Belfield& Levin, The Economics of Investing in Opportunity Youth, (2012)

# Opportunities to Engage with Young Adults

# Summer Youth Employment Programs

# Ascend Overview

### Our Vision

Indiana is a place of economic opportunity for all.

## Our Mission

We connect people to careers, catalyze transformative employer and education partnerships, and generate labor market insights that enable a modern workforce ecosystem.

The gap between open jobs & available talent continues to widen.

Employers can't find talent.

Talent can't find jobs.

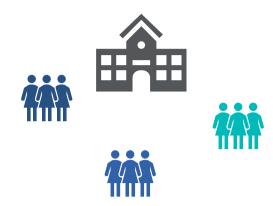

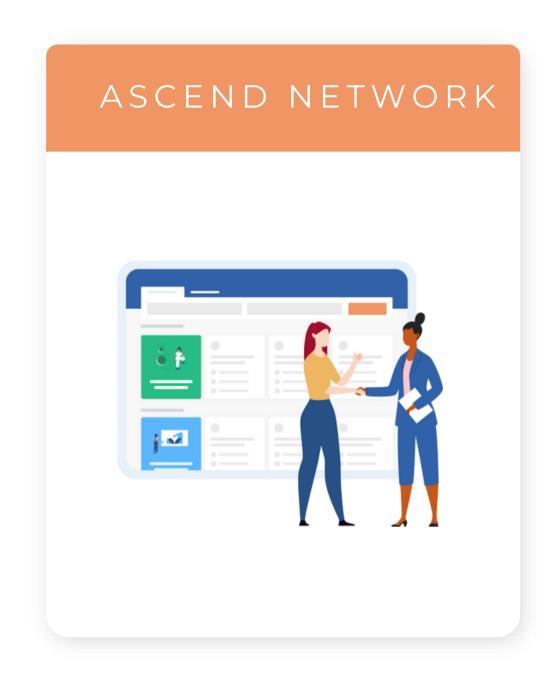

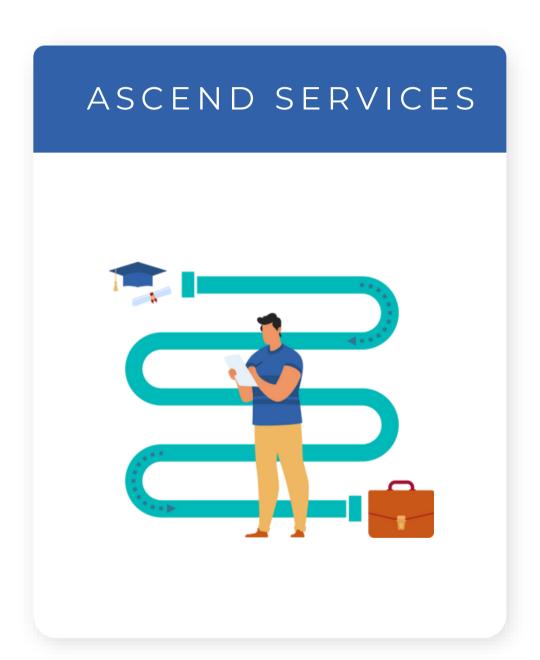

Supply

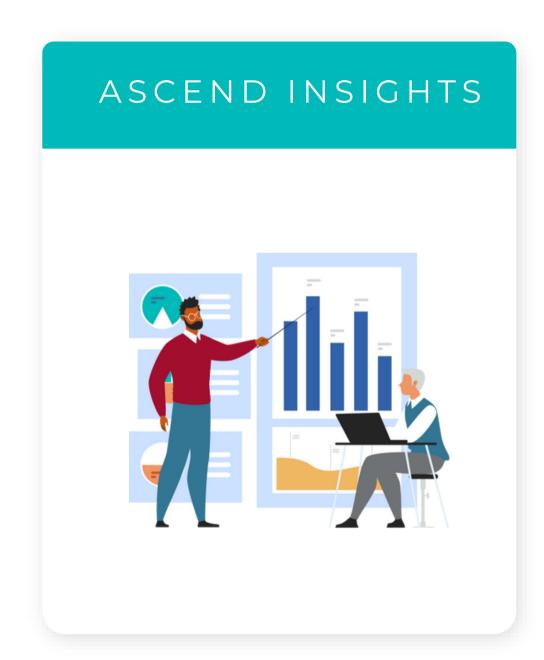

### **Ascend Solutions**

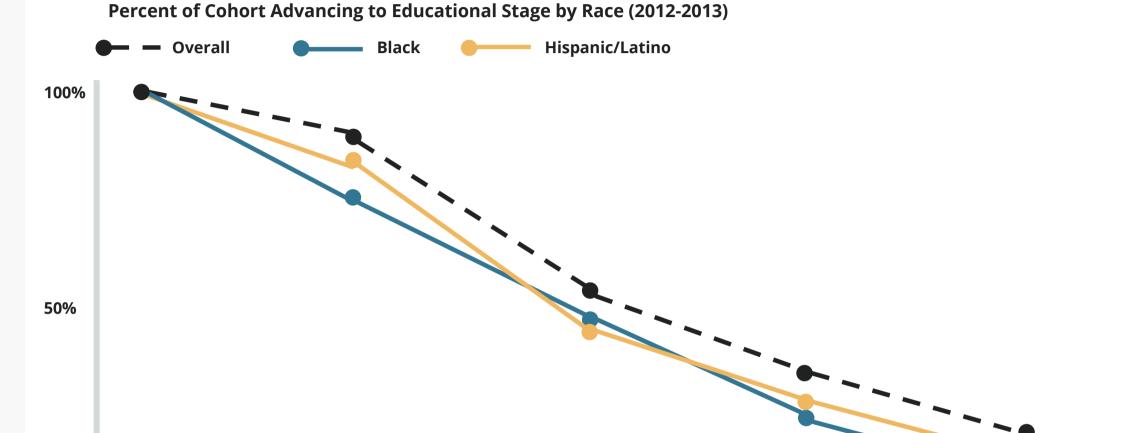

State of Youth Apprenticeship in Indiana

Far too many students fall out of Indiana's high school to postsecondary graduation pipeline.

College

**Enrollment** 

College

Completion

2nd Year

**Persistence** 

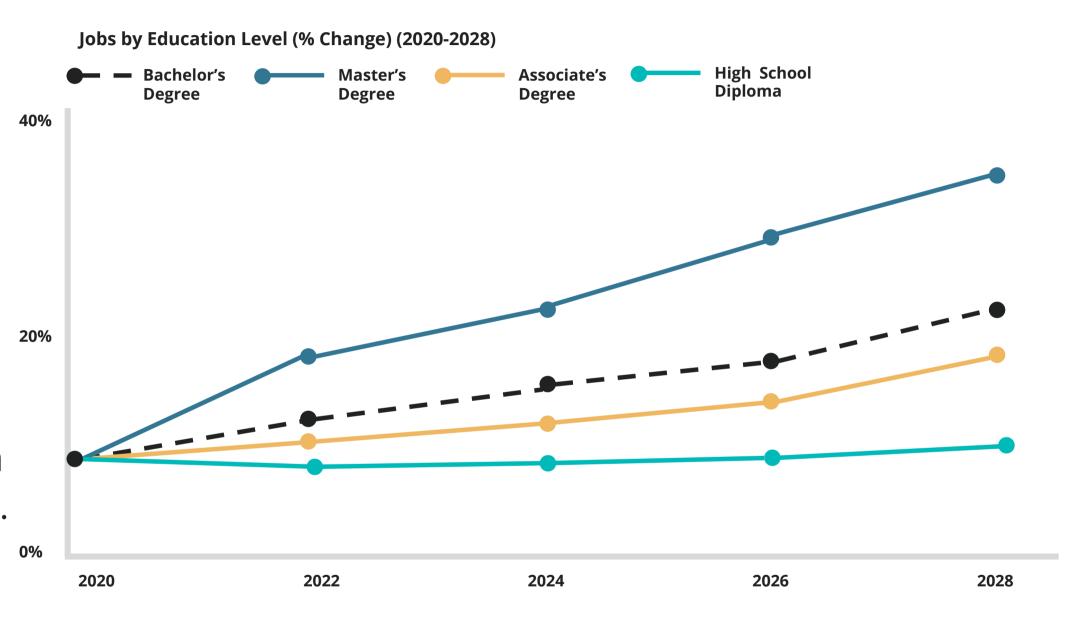

**High School** 

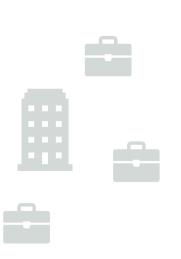

**High School** 

Graduation

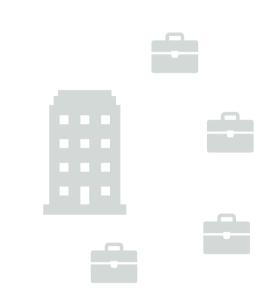

COVID-19 has accelerated the demand for postsecondary credentials & degrees and decelerated jobs needing only a high school diploma/equivalent.

To improve youth employment and education attainment outcomes and meet business demand, we need stronger linkage between educators and employers.

# Youth Apprenticeship

It is a 3-year work-based learning program typically starting during a student's junior year in high school, creating a talent pipeline that meets employer demand now & in the future.

- 1 Paid employment
- 4 Industry credentials
- 2 On-the-job learning
- 5 College credit
- Related academics
- 6 USDOL RA alignment

### How Does this Differ from an Internship?

#### An apprenticeship is not...

- An internship
- Focused only on trades
- Prescriptive career placement
- •The end of the student's career journey
- •Employment available only to individuals aged 18 or older

#### An apprenticeship is...

- •A job & integrated education & training
- •For all 21st Century industries
- Career & development multiplier
- •A solid jumping off point to their career
- •Opportunity for 16+17-year-olds to have significant impact

## The Value of Modern Apprenticeship

Addresses business needs while setting students up for a successful career.

#### **EMPLOYERS**

Fill a specialized talent pipeline & address talent challenges while earning measurable ROI & diversifying the workforce

#### STUDENTS

Earn a credential & aligned college credit while getting paid & developing real-world work experience & social networks

#### **EDUCATION**

Secure industry input on standards and curriculum, build business partnerships & provide student opportunities

### Apprentice Testimonials

### Ariana Rodriguez-Shinault, QA Tech

"This is a completely different environment than I'd ever been in, but I would say applying to MAP was the best decision I could ever make. I feel more confident when life shows me challenges."

### Uriah Khoury, Business Ops Assoc.

"I have become a much better communicator throughout the program and have become more organized. My favorite part of this experience is learning more about Roche while knowing that I am making an impact."

## **Employer Testimonials**

### Cindy Adams, Chief Nursing Officer

"COVID-19 has exacerbated the need for new approaches to recruiting and training talent in healthcare as well as other high-demand professions.

Modern Apprenticeship offers a promising path to meet today's

#### workforce

needs and positions Central Indiana employers with the talent they need to thrive in the future."

### Mario Rodriguez, Exec. Director

"This program is a no brainer. The program gives us the ability to bring in students, train them, hopefully keep them, and give them a career as our older workforce is retiring."

# Accelerator II Overview

### Accelerator II Purpose

#### CONTEXT

The **Youth Apprenticeship Accelerator II** is an initiative of Ascend Indiana designed to advance Youth Apprenticeship efforts in Indiana, with generous support from Partnership to Advance Youth Apprenticeship (PAYA), Bloomberg Philanthropies, and Walton Family Foundation.

#### **APPROACH**

The Accelerator Initiative serves to bolster the programmatic growth and innovation of youth apprenticeship sites across the state. By distributing subgrants and delivering technical assistance, Ascend will facilitate the design and launch of youth apprenticeship programs within a new Accelerator Cohort.

#### **OUTCOMES**

- Expand youth apprentice footprint across the state by readying communities
- Develop strong local workforce ecosystem connections between education and employers, leading to talent pipelines and enhancing the local economy
- Provide robust WBL experiences for youth that prepares them with skills for their career

### Cohort II Accelerator Sites

Center of Workforce Innovations

Eastern Indiana Works

Southern Indiana Education Center

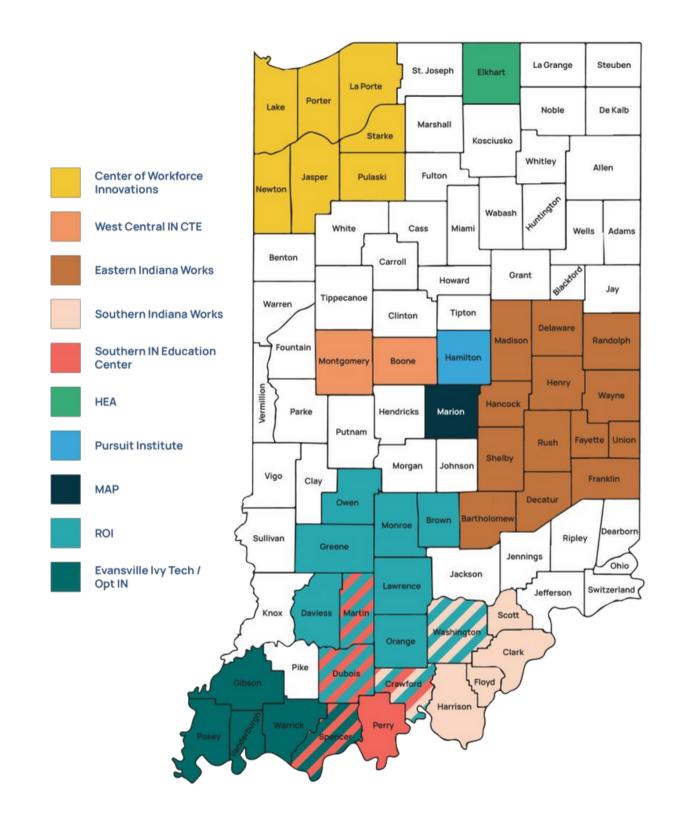

Southern Indiana Works

### Accelerator II

Southern Indiana Works joins the growing number of intermediates actively working to create more opportunities for both employers and students.

## Accelerator II Sites are in a Design Phase

- Youth Apprenticeship is a challenging program to start and implement
- To ensure a successful launch, sites will need to develop core programmatic components of their youth apprenticeship
- Youth Apprenticeship Design Phase walks sites through core priorities related to design and implementation and tools and resources to launch a pilot cohort
- Youth Apprenticeship Design Phase provides regions with time and capacity to build plans
  - **Launch** and related and ongoing Technical Assistance conversations

## Design Phase Approach

#### CURRENT STATE

Assess readiness
across Youth
Apprenticeship Core
&Supporting
Priorities for Design
and related
indicators

#### OWNERSHIP STRUCTURE

Map the key stakeholders across the region that will support the design of youth apprenticeship programming

#### APPRENTICE JOURNEY

Design the programmatic elements of youth apprenticeship leveraging Human-Centered Design thinking

#### STAKEHOLDE R ENGAGEMENT

Engage initial stakeholders that will support the design phase of youth apprenticeship

#### STRATEGIC PLAN FOR LAUNCH

Identify goals, related tasks, roles and responsibilities, and resources to support program launch
